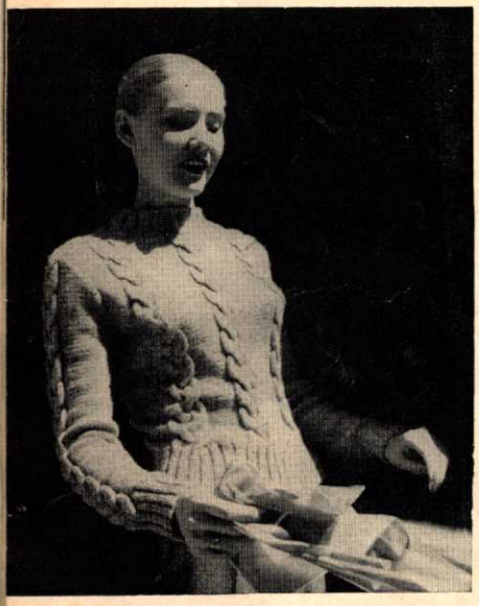
YOUR FIRST

CABLE SWEATER:

As shown on page 31



Just to prove how easy cables are, and how simple it is to follow SMART KNITTING instructions, we are starting you on this super-cable slipon. The cables form mighty braids that stand out in bold relief against a background of reverse stockinette stitch (reverse stockinette stitch is merely the wrong or purled side of plain stockinette stitch). On the next page are the instructions given in our usual easy-to-follow instructions. Below we give you all the extra help a beginner may need; and, of course, on page 69 you will find our regular INSTRUCTION DEPARTMENT, which is always a feature in SMART KNITTING. Read through the instructions, and look up any terms or abbreviations you do not understand. We always list the thread first, the gauge second, and then the actual bust measurement of the garment so that you will know exactly how many inches your garment will measure. For example: If you are making this sweater in size 16, the finished measurements will be 38" at the bust. We call it the "Knitted Bust Measurements" so that you will know exactly how many more inches there are in the garment than there are around your body. To assure a perfect fit, you must knit to the exact gauge given. All lengths are from standard measurements. You can lengthen or shorten to your figure at any place in the patterns where the instructions are to "work even." All set? Then let's go:

CASTING ON: Since casting on is often a stumbling block for beginners, here is a step-by-step diagram. Fig. 1 shows how to make a slip-knot (a). Make slip-knot about 2 yds. from end of yarn. Arrow shows where to insert needle. Short end (shaded strand) is twisted to form closed loop over left thumb (b), then knit a stitch through it (c). Drop shaded loop off thumb and tighten short end (d). Repeat steps b, c and d.

KNITTING, PURLING and RIBBING: These are explained on p. 69. Be sure to pass yarn under tip of right-hand needle when changing from knit to purl stitches; when knitting, yarn must be in back of needle; when purling it must be in front.

INCREASING: Fig. 2 shows how to make two stitches in one stitch. Knit in usual manner (shaded loop), then knit in back of same stitch before dropping it from left-hand needle.

1st CABLE TWIST ROW: Fig. 3 shows 6 stitches held in back of work on dp needle. Reach in front of them to knit next stitch; this twists cable from left to right. Fig. 4 shows dp needle in position to work stitches from it.

2nd CABLE TWIST ROW: Fig. 5 shows 6 stitches held in front of work on dp needle. Reach behind them to knit next stitch; this twists cable from right to left. Fig. 6 shows dp needle in position to work stitches from it.

COUNTING ROWS: It is important to count rows between cables which are always twisted on right-side rows. Thread a strand of contrasting color through plain stockinette section. Fig. 7 shows how easy it is to count rows this way.

DECREASING: Work off two stitches as if they were one.

BINDING OFF: If this presents difficulties, try a crochet hook to replace right hand needle. Knit 2 stitches with hook, then draw 2nd stitch through 1st stitch. Knit another stitch and draw it through stitch on hook. Each time a stitch is drawn through previous stitch, it has been bound off. To continue work across row, place last stitch from hook on right-

BLOCKING: Pin front and back together, wrong sides out, with pins ½″ apart, pointing in from edge. Each piece keeps the other flat. Pin sleeves in same way. Follow blocking instructions on page 69.

SEWING: Use yarn and yarn needle. Ribbing should be joined edge to edge by making one overcasting stitch to each row on wrong side (Fig. 10). If stitches are too tight or close together, they form a hard ridge. Join seams above ribbing on wrong side with running stitches about ⅛″ or ¼″ from edge (Fig. 11). Make a back-stitch every 1½″ for strength. Press seams lightly and behold! a proud addition to your winter wardrobe.

WINNERS READER'S IDEAS COLUMN

Use a crochet hook when binding off stitches. * Insert hook thru st on left-hand needle, draw lp thru, yo and thru 2 lps on hook, repeat from * around.

Mrs. Paul Specker, Marquette, Mich.

Ed. Note: *See page 55 for details.*

Sweaters made with heavy yarns keep in shape when bound with grosgrain ribbon around the neckline and from shoulder to neckline.

Mrs. Jeanne Willmott, Rochester, New York

Instead of binding off and sewing shoulders together, keep stitches on right-hand needle working the shoulders as short rows, then weave the sts together as the toe of a sock is finished.

Mrs. Donald R. Sprague, Schenectady, New York

Keep a bar of sweet-smelling soap in your yarn box. It prevents moths and gives the yarn a nice aroma.

Mrs. Rose Blum, Oswego, New York

With every hand-knit gift, enclose a bobbin of the same yarn to be used for mending or lengthening.

Mrs. Phillip S. Weiss, Chicago, Ill.

If plastic knitting needles become too blunt after long use, sharpen in a pencil sharpener and smooth rough spots with an emery board.

Mrs. Samuel W. Foster, Aurora, Ill.

Cut 5 strips of narrow tubular elastic to waist size and join. Crochet each elastic band individually around top of skirt. This makes a neat and durable casing.

Mrs. Edith Gross, Los Angeles, Calif.

Dress up a basic favorite with collars, cuffs or a waistline insertion knit with left-over yarns and threads.

Mrs. B. Prince, Madison, Wisconsin

Knit the borders on cardigans on a smaller size needle than the body portion. It will keep sweaters from sagging.

Bernice E. Sumner, Oakland, Calif.

When making a lengthy pattern write each line on a 3 x 5 index card. When row is completed put card to bottom of pack. In this way starting place is easily determined.

E. L. Carter, Hartford, Conn.

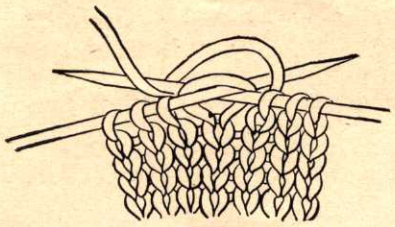
STOCKINETTE STITCH

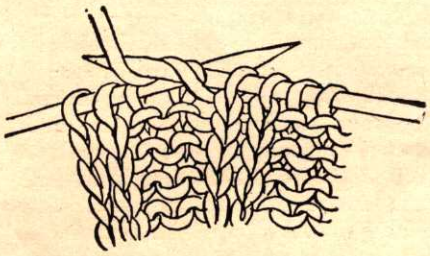


Right Side: K 1 row.

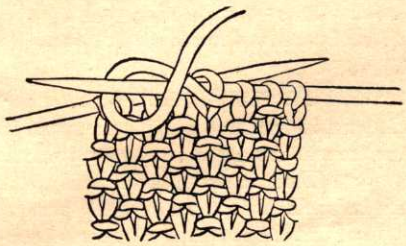
PURLING

Wrong Side: P 1 row.

RIBBING



SEED OR MOSS STITCH

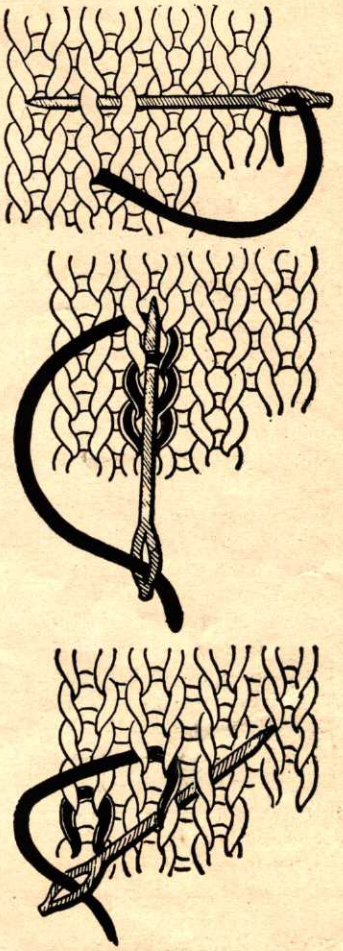


BLOCKING

Block each piece separately. Lay wrong side up on a flat padded surface large enough for entire piece. A large turkish towel on the rug is good. If front and back are the same shape, block them together, also sleeves, having right sides together and using rustproof pins. Pin the center of neck and waist in an even line, put a couple of pins down this line then work to outer edges, stretching to measurements worked in pat. By working from the center a more even distribution is maintained. Place pins about ½" apart around entire edge. Remove pins down center line before pressing. Lay a damp cloth over piece and steam with a hot iron. Do not allow weight of iron to rest on article if it is wool. Allow piece to lay until dry. Remove pins and if necessary steam underneath piece in same manner. For Cardigans or Buttonhole Borders baste pieces together as they should overlap, then block. Seams look best when sewn in back-hand stitch about ⅛" from edge. Press seams open.

DUPLICATE STITCH

Follow illustration being careful not to pull thread too tight.



MARKERS

These are small plastic rings that can be slipped onto a needle, or, take a piece of contrasting colored thread and knot a lp, sl this on needle between sts where specified. Whenever you come to a marker on a row or rnd, sl it from left to right needle. Markers are placed in work as an aid in counting and to help keep incs. or decs. evenly spaced.

STITCH GAUGE

IMPORTANCE OF STITCH GAUGE . . . The stitch gauge given at the beg. of each pattern is most important. You must work to the gauge given or your finished garment will not be the correct size. HOW TO CHECK YOUR STITCH GAUGE . . . Use the yarn and needles specified for the body of your work. Cast on about 24 sts, work in pat. st for 3", bind off all sts. Block this swatch, then lay on a flat surface. Place a ruler over center of swatch and count the number of sts to an inch, then count over 2" which should be double. If you have *more* sts to an inch than called for, use the next LARGER size needle; if you have *less* sts to an inch, then use the next SMALLER size needle. Again make a swatch and check your gauge. THE SIZE OF THE NEEDLE USED DOES NOT MATTER AS LONG AS YOUR STITCH GAUGE IS CORRECT.

All sizes in SMART KNITTING are based on Standard Measurements. At the beginning of each pattern you will find the blocked bust or chest measurements of each garment.
